

KELROY JAMES

Supply Chain Assurance · Governance, Risk & Compliance

 kelroydbjames@gmail.com |  [linkedin.com/in/kelroy-james](https://www.linkedin.com/in/kelroy-james) |  kelroyjames.com

PROFESSIONAL SUMMARY

Supply chain assurance and GRC specialist with 18 years of Defence logistics experience, delivering measurable outcomes in high-stakes environments. Expert in closing the gap between records and physical reality through systematic controls, risk-based auditing, and enterprise-level process improvement.

Core Capabilities: Supply chain assurance | Financial control recovery | Dangerous goods compliance | Third-party risk management | ISO 27001/42001/27701 audit | Inventory & asset management | Export control | Digital transformation

Proven Impact: £2.4M financial misallocation corrected | £250K lean maintenance savings | 100% compliance achievement rate | 3 control artefacts adopted fleet-wide | 80% financial liability reduction

PROFESSIONAL EXPERIENCE

Petty Officer (Supply Chain Manager)

Royal Navy, Type 45 Destroyer | May 2024 – Present

Account Turnaround & Financial Control Recovery - Took over unsatisfactory Type 45 destroyer supply chain account; designed first-line controls that achieved full compliance within 12 months - Identified and corrected £2.4M in misallocated expenditure through systematic analysis of spending patterns and ledger-to-reality reconciliation - Conducted root cause analysis leading to Navy-wide policy instruction to prevent recurrence - Developed 3 control artefacts (stock variance protocol, custody transfer checklist, expenditure reconciliation template) adopted across Type 45 fleet - Reduced financial liability by 80% through asset verification and documentation remediation

Digital Transformation & Data Analytics - Co-developed fleet-wide inventory interrogation application in Palantir Foundry with DE&S and prime contractor teams - Designed ground-truth validation protocols and real-time visibility dashboards scoped for enterprise rollout - Integrated legacy inventory systems with modern data platform, enabling cross-platform analytics

Compliance & Risk Management - Managed dangerous goods compliance (IMDG Code, ADR, IATA DGR) for naval aviation stores and ammunition - Conducted supplier due

diligence using OSINT techniques for third-party risk assessment - Maintained 100% compliance across all mandated inspection cycles

Petty Officer (Stores Office Manager)

Royal Navy, Wildcat Maritime Force | Apr 2022 – May 2024

Asset Accountability & Investigation Closure - Consolidated dispersed Force Mobile Equipment from Accounting-in-Use control into a single accountable stock holding site, delivering a Tier 3 audit recommendation - Closed 14 major loss investigations, recovering the majority of previously unaccounted items rather than writing them off

Expeditionary Logistics Under Deadline Pressure - Turned round a rejected consignment in 3 days to meet a fixed flight slot, sustaining a Gibraltar logistics support arrangement for a Ship Helicopter Operating Limit (SHOL) trial for the Future Anti-Surface Guided Weapon (FASGW) capability, valued at approximately £5M - Coordinated packing and cross-border movement of 7 containers of equipment for Exercise Tamber Shield (Joint Expeditionary Force); recovered a critical equipment shortfall mid-exercise, closing with 3 hours to spare against the return flight and delivery deadline

Supply Chain Specialist / Logistics Inspector

Royal Navy, Various Postings | 2008 – 2022

- Led logistics support for multi-service diving operations (Fleet Diving Squadron HQ) across UK and international deployments; praised by OIC as top logistics specialist across 12 years, “second to none” in stakeholder networking and task delivery
 - Conducted fleet logistics inspections, stocktaking, and remedial action planning; founded a junior rates development programme later adopted as a standing programme and recognised with a Royal Navy Inclusivity Award (2023)
 - Led a £250K cost-saving lean maintenance initiative through inventory optimization and stock-holding reduction, while maintaining operational readiness
-

GIS Analyst & Infrastructure Planner

St Vincent Electricity Services (VINLEC) | 1996 – 2008

- Led GPS geo-tagging of national grid infrastructure (12,000+ assets), underpinning an enterprise GIS mapping system that won an Esri Special Achievement in GIS Award
- Advanced from meter reader to planning specialist through self-directed capability development; awarded Employee of the Year for operational excellence

EDUCATION & QUALIFICATIONS

Academic Credentials

- **MSc Supply Chain and Logistics Management (Defence Logistics Staff Course)** | University of Lincoln | In Progress (Distinction track), Apr 2025 – Apr 2027
- **MicroMasters, Supply Chain Management & Advanced Network Design** | MIT Center for Transportation & Logistics | Completed 2024
- **Professional Award in Cyber Security & OSINT** | Abertay University | Distinction, 2023–2025

Key Certifications

- ISO/IEC 27001:2022 / 42001:2023 / 27701:2025 Lead Auditor | Mastermind
- Fellow of Management Systems Auditing (FellowMSA) | Mastermind
- CompTIA PenTest+ ce | Valid to 2027
- Forward Program (Advanced Professional Development) | McKinsey & Company, 2024
- Tech Risk and Compliance Management | OneTrust, 2025

Full certification record (28 credentials across GRC, finance, data and technical domains) and continuing education: kelroyjames.com/skills-expertise.html

Professional Development

- **1SL Richmond Fellowship** | Royal Navy Strategic Studies Centre | 2025–2026
- **Percy Hobart Fellowship** | Digital Transformation | 2022
- **AWS Community Builder** | Fourth consecutive year | Cloud architecture & data engineering

AWARDS & RECOGNITION

- **Royal Navy Inclusivity Award for Innovation** | 2023 | Inaugural recipient for junior rates development programme
- **Chief Naval Logistics Officer's Award** | 2018 | Coaching, Mentoring & Training
- **Herbert Lott Naval Trust Fund Efficiency Award** | 2019 | Process improvement and operational excellence
- **VINLEC Employee of the Year** | St Vincent Electricity Services | Operational excellence in infrastructure planning

TECHNICAL COMPETENCIES

Governance, Risk & Compliance: ISO/IEC 27001, 42001, 27701 | ISO 19011 (Audit) | COSO Internal Control | Three Lines Model | NATO AQAP 2110 | MoD JSP 886 | Export

Control (ITAR, EAR, UK Strategic Export Controls) | Dangerous Goods (IMDG, ADR, IATA DGR, dual-use assessment)

Audit & Assurance: Risk-based audit planning | Control testing | Root cause analysis | CAR management | Evidence sampling | Non-conformity investigation | Process maturity assessment

Systems, Analytics & Delivery: Palantir Foundry | Oracle JD Edwards | SAP Materials Management | Power BI | Tableau | SQL | Python | PRINCE2 | Agile

THOUGHT LEADERSHIP & PUBLICATIONS

Portfolio Website: kelroyjames.com — full case studies with quantified outcomes, two published open-source frameworks, and articles in preparation

Frameworks & Reference Material (Published)

- **OSINT Supplier Verification Framework** | Seven-stage open-source verification sequence for third-party risk assessment
- **Same Control, Two Vocabularies** | Military-to-civilian skills translation mapped against ISO 27001, ISO 19011, COSO, Three Lines Model

Also in preparation: a two-part series on defence skills taxonomy and veteran employability, and an assurance piece on export control gaps between supply chain and IT teams — see site for details.

TESTIMONIALS

Rob Jones CEng MIET FCMI | Project Manager, Thales (Former Officer in Charge, Fleet Diving Squadron HQ)

“Of all the logistics specialists I worked with over 12 years if I could select one to support my engineers on the ground it would be Kelroy. His application of the defence procurement model and capability to network with all stakeholders to achieve the required outcome is second to none. If you have critical logistics needs, this is the man you need to manage it!”

CAREER OBJECTIVES & MEMBERSHIPS

Seeking senior roles in **supply chain assurance**, **GRC management**, **management consulting**, or **operational risk** where systematic controls, risk-based thinking, and the discipline of testing the ledger (not reproducing it) create measurable business value. **Available from April 2028 (resettlement)**. Fellow of Management Systems Auditing (FellowMSA) | AWS Community Builder (Data & Analytics) | CompTIA Professional Member. *Views expressed in portfolio and publications are personal and do not represent the*

position of the Royal Navy, Ministry of Defence, or any organization with which I work. Last Updated: September 2026 | Portfolio: kelroyjames.com
